**Best Practices 2021-22**

**Best Practice No. 01 *Service Provider Scheme for Students***

The college is always ahead in providing the various facilities for the students. Some students are benefitted with the 'Earn and Learn Scheme' of the university. Those students which are not benefitted with any other economic source, the college gives an opportunity for such students by providing them the scheme named 'Service Provider'. In it, the students can use their skill of different professions like rangoli, mahendi, A.C. repairing, driving, mobile repairing, agricultural shop, car mechanic, tailor etc. The college suggest the particular student with mobile number to provide the service to the needy teacher and the person known to them.

**Best Practice No. 02 *COVID 19 Vaccination Programme for College Students***

The College is aware about social attachment towards the society. As COVID 19 Pandemic was severe, so the restrictions were there in providing services to the society. The college has provided one of such service to the society by arranging a vaccination programme for college students in collaboration with Government of Maharashtra from 26/10/2021 to 30/10/2021.

Best Practice No. 03 Title of the Practice: Green and Eco-friendly Campus

The College is aware of environment and as a part of it, we have developed green and clean campus. We have separate parking of vehicles for students and teachers. The students and teachers are environmental conscious and take efforts in maintaining a campus green and ecofriendly.

i) Tree Plantation:

The institute JDMVP established in 1917 and its first college founded in 1972. Since that time, we have given importance to planting trees. There are various types of trees and plants in the campus. Overall there are 27 different types of trees planted – like Bottle Pump, Neem, Saptparni, Banyan, Ashoka, Sisam, Banyan, Gul-Mohar, Bel patra, etc. The students belonging to NCC/NSS and Sports water the plants on regular basis. A botanical garden is developed which not only facilities studies but also acts as an environment friendly endeavor of the college. This garden consists number of medicinal plants.

ii) Keeping Campus Clean: We have special campus sweeper to clean the campus early in the morning. There are dustbins kept at various places in the campus. The students and the teachers use the dustbins for keeping the waste and garbage.

iii) Say no to Plastic: The college creates the awareness among the teachers and the students regarding no use of plastic- “Say No To Plastic”.
